Portfolio Manager Comment as of December 2023

We maintain a conservative profile with a duration of 4 months. Its main holdings are assets with exposure to short-term CER (Bills and Bonds) adjustment and dual bonds. We have marginally increased the duration, given the negative spreads of the shortest leg, but maintaining focus on controlling volatility.

Investment Portfolio Structure

- Government Bonds 45%
- Dollar Linked Government Bonds 44%
- Mutual Fund Shares 11%
